WARRANTY

Manufacturers Warranty Applies.

Since the infrared optical tracking system used by TRAZER is a light-based system, sunlight, certain types of high-intensity lighting and mirrors may affect the operation of TRAZER. Mirrors cannot be directly behind the user or immediately parallel (less than 8') to TRAZER. Please note that other reflective surfaces, such as windows, bright white walls and other glossy surfaces, if less than 8' from the TRAZER, may impact TRAZER performance.
